Interpreting & Constructing 2D Diagrams

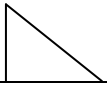

Diagrams

(Plans & Drawings)

Scale : 1 cm represents 1 m

This is the ground floor of a house

1	What do the following symbols stand for?
a	
b	
2	The drawing has a scale. This is indicated at the base of the plan. What does this mean?
3	
a	Measure the width of the lounge.
b	Using the scale state the actual width of the lounge.
4	A shelf unit bought for the lounge is 2 metres long.
a	How long would this be on the plan?
5	Measure the room you are in and draw to scale and mark the furniture.
