‘How To’ Booklet 12 Answers

Calculations With Ratios

1	$3:1 \times 2 = 6 : 2$ compared to $5 : 2$. The 5 : 2 is (b) the strongest as it has less sand to 2 parts cement.
2	$1 : 6 \times 2 = 2 : 12$ $2 : 15 = 2 : 15$. Therefore (b) has the most women.
3	$6 : 1 \times 4 = 24 : 4$. so (b) has more fruit.
